UPDATE: Just reduced to £89,950.

Her owners have now found their next yacht, so Jess has been significantly reduced for a quick sale that will allow them to purchase the yacht.

This is EXCELLENT value for a yacht of this quality. Not to be missed.

The Island Packet 350 is actually almost 37ft and is a high quality cutter rigged cruiser that is capable of serious offshore voyages, yet is as equally at home as a very comfortable local cruiser.

The accommodation below is excellent, with all proportions being on the generous side and high levels of attention to detail and quality woodwork and materials used throughout. The design of the interior layout is extremely good and will provide comfortable living space either offshore or in port.

This particular example has been well maintained and extremely well set up for comfortable long distance cruising and living aboard.
